**Overburden Removal**  
(million bcm)

) Overburden production in October 2017 significantly increase compared with the productions in October 2016 since no mud loading activity and low rain frequency level.

**Coal Getting**  
(million ton)

) Coal production in October 2017 relatively stable compared with October 2017, however in total the production up October significantly increase, since some of the coal sent to alternative stock pile, which the distance is shorter than the main stock pile.
